ISSN 2074-1871 Уфимский математический журнал. Том 9. № 3 (2017). С. 194-195.

# CONTENTS

Alexey Fedorovich Leont'ev (to his centenary)
pp. 3-7

**F.G. Avkhadiev**

Estimates of Hardy-Rellich constants for polyharmonic operators and their generalizations
pp. 8-17

**G.G. Braichev**

Two-sided estimates of the relative growth of functions and their derivatives
pp. 18-26

**A.M. Gaisin, G.A. Gaisina**

Estimates for growth and decay of functions in Macintyre–Efgrafov kind theorems
pp. 27-37

**O.A. Ivanova, S.N. Melikhov, Yu.N. Melikhov**

On the commutant of differetiation and translation operators in weighted spaces of entire functions
pp. 38-49

**K.P. Isaev, K.V. Trounov, R.S. Yulmukhametov**

Representation of functions in locally convex subspaces of $A^\infty(D)$ by series of exponentials
pp. 50–62

**L.A. Kalyakin**

Adiabatic approximation in a resonance capture problem
pp. 63–77

**N.N. Konechnaya, K.A. Mirzoev**

Asymptotics of solutions to a class of linear differential equations
pp. 78–88

**A.S. Krivosheyev, A.F. Kuzhaev**

On a Leontiev-Levin theorem
pp. 89–101

**O.A. Krivosheeva**

Invariant subspaces with zero density spectrum
pp. 102–110

**I.Kh. Musin**

On a Hilbert space of entire functions
pp. 111-118

**V.Yu. Novokshenov**

Discrete integrable equations and special functions
pp. 119–131

**A.B. Shabat, M.Kh. Efendiev**

On applications of Faa di Bruno
pp. 132–137

**Yu.Z. Shaygardanov**

Asymptotics in a parameter of the solution to an elliptic boundary value problem in the vicinity of the outer touching of the characteristics to the limit equation
pp. 138–147

**F.A. Shamoyan**

Analytic functions with smooth absolute value of boundary data
pp. 148–157

**R.N. Garifullin, R.I. Yamilov**

On the integrability of a discrete analogue of the Kaup-Kupershmidt equation
pp. 158–164

**F. Haslinger**

Pauli operators and the $\overline{\partial}$-Neumann problem
pp. 165–171

**A. Sukhov**

Levi-flat world: a survey of local theory
pp. 172–185

**Abstracts**
pp. 186–193

**Contents**
pp. 194–195
