CONTENTS

W.E. Admasu, E.I. Galakhov

Conditions for absence of solutions to some higher order elliptic inequalities with singular coefficients in $\mathbb{R}^n$
pp. 3–8

Zh.A. Balkizov

Nonlocal problems with shift for matching two second order hyperbolic equations
pp. 9–19

Yu.G. Voronova, A.V. Zhiber

On a class of hyperbolic equations with third-order integrals
pp. 20–30

R.A. Gaisin

On rate of decreasing of extremal function in Carleman class
pp. 31–41

A.R. Danilin

Asymptotics for solutions to problem on optimally distributed control in convex domain with small parameter at one of higher derivatives
pp. 42–54

R.Sh. Kalmetev, Yu.N. Orlov, V.Zh. Sakbaev

Averaging of random affine transformations of variables in functions
pp. 55–64

E.G. Rodikova

On continuous linear functionals in some spaces of functions analytic in a disk
pp. 65–73

M.Sh. Shabozov, Z.Sh. Malakbozov

Sharp Jackson–Stechkin type inequalities in the Hardy space H_2 and widths of functional classes
pp. 74–84

M.G. Yumagulov, S.V. Akmanova

On the stability of equilibrium points of nonlinear continuous-discrete dynamical systems
pp. 85–100

A. Chouia, A. Azeb Ahmed, F. Yazid

Analysis of a thermo-elasto-viscoplastic contact problem with wear and damage
pp. 101–119

D.K. Durdiev, J.J. Jumaev, D.D. Atoev

Inverse problem of determining two kernels in the integro-differential equation of heat flow
pp. 120–135

H. Serrai, B. Tellab, Kh. Zennir

On two-order fractional boundary value problem with generalized Riemann-Liouville derivative
pp. 136–157

Abstracts
pp. 158–163

Contents
pp. 164–165
